Get started

If you DO have an Airtable account

1. After clicking your template link, your template will open in a new window.

   - Click “Copy base” at the top of the screen (pink circle below).

👇

2. Select which workspace you would like to install your hub in and click “Add base”. 👉

   - After clicking “Add base,” your hub will open up in Airtable.

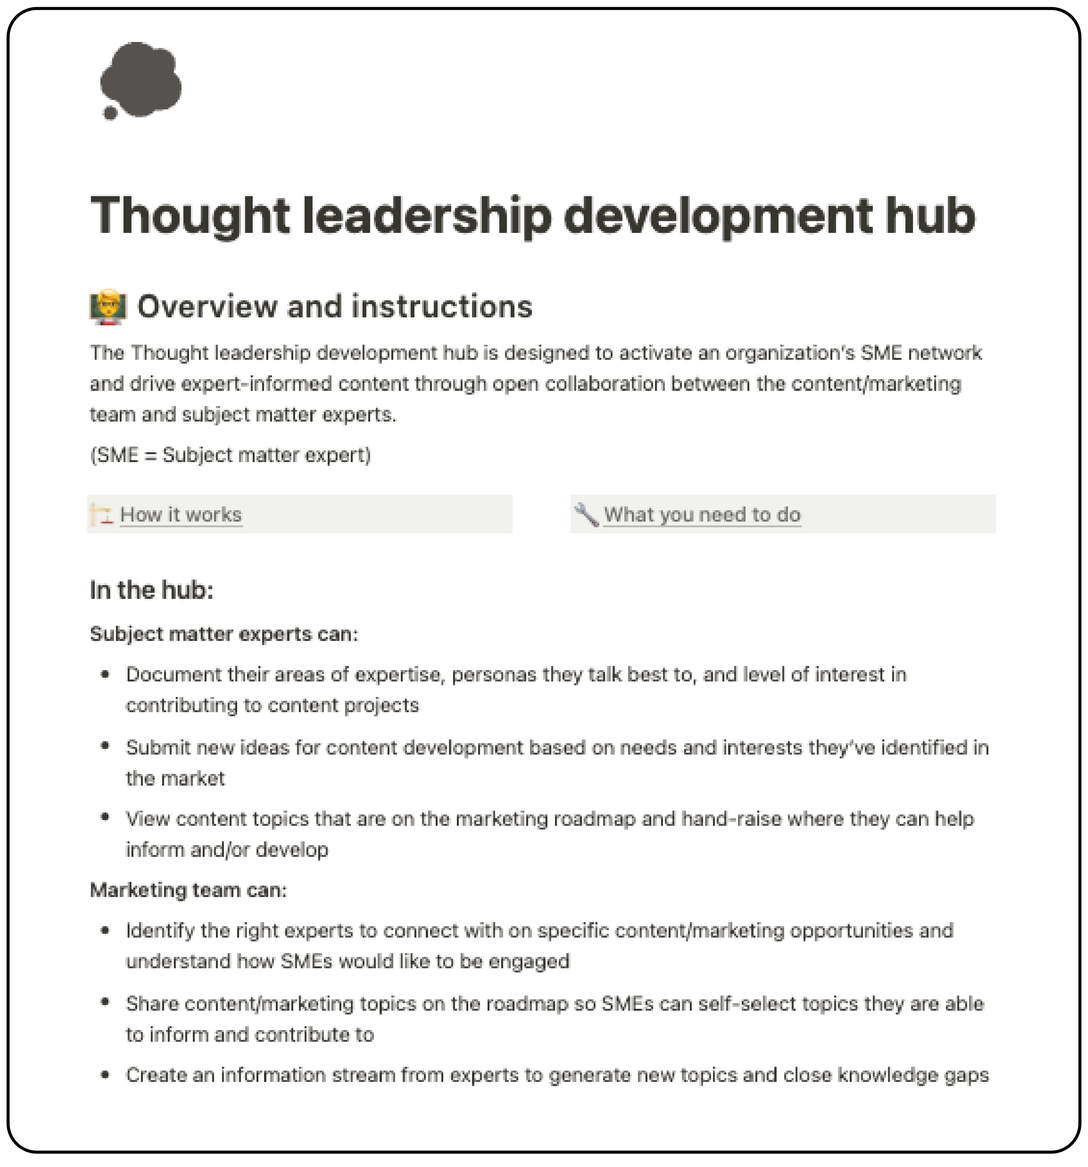

Get started

If you DO have an Airtable account (Continued)

3. Open and follow the hub instructions to update and start using your hub.

- Note: Airtable currently doesn't have a doc feature, so the instruction are in Notion.

👇

Thought leadership development hub

🤷 Overview and instructions

The Thought leadership development hub is designed to activate an organization's SME network and drive expert-informed content through open collaboration between the content/marketing team and subject matter experts.

(SME = Subject matter expert)

🏗️ How it works

🔧 What you need to do

In the hub:

Subject matter experts can:

- Document their areas of expertise, personas they talk best to, and level of interest in contributing to content projects
- Submit new ideas for content development based on needs and interests they've identified in the market
- View content topics that are on the marketing roadmap and hand-raise where they can help inform and/or develop

Marketing team can:

- Identify the right experts to connect with on specific content/marketing opportunities and understand how SMEs would like to be engaged
- Share content/marketing topics on the roadmap so SMEs can self-select topics they are able to inform and contribute to
- Create an information stream from experts to generate new topics and close knowledge gaps

4. Go forth and make great things.

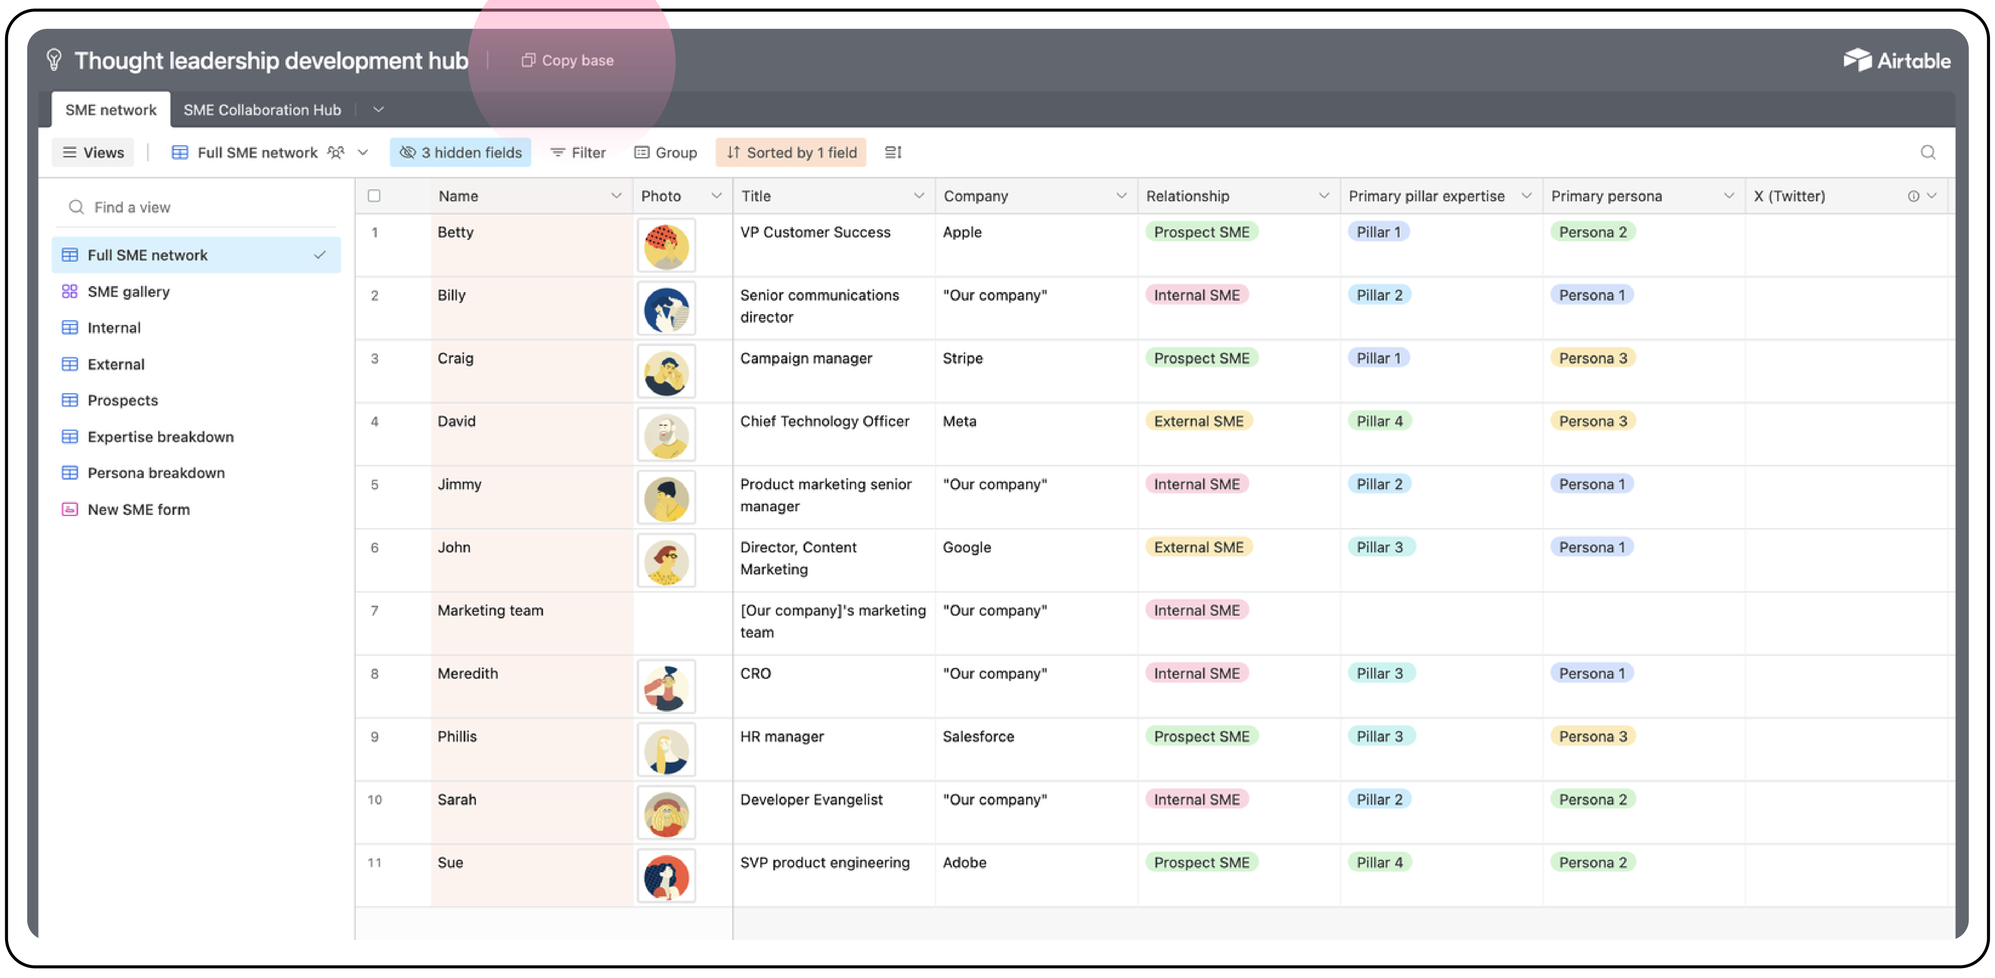

Getting started

If you DON'T have an Airtable account

1. After clicking your template link, your template will open in a new window.

   - Click "Copy base" at the top of the screen (pink circle below).

👇

2. Airtable will now ask you to create your free account. 👉

   - Complete the several-step account creation process.

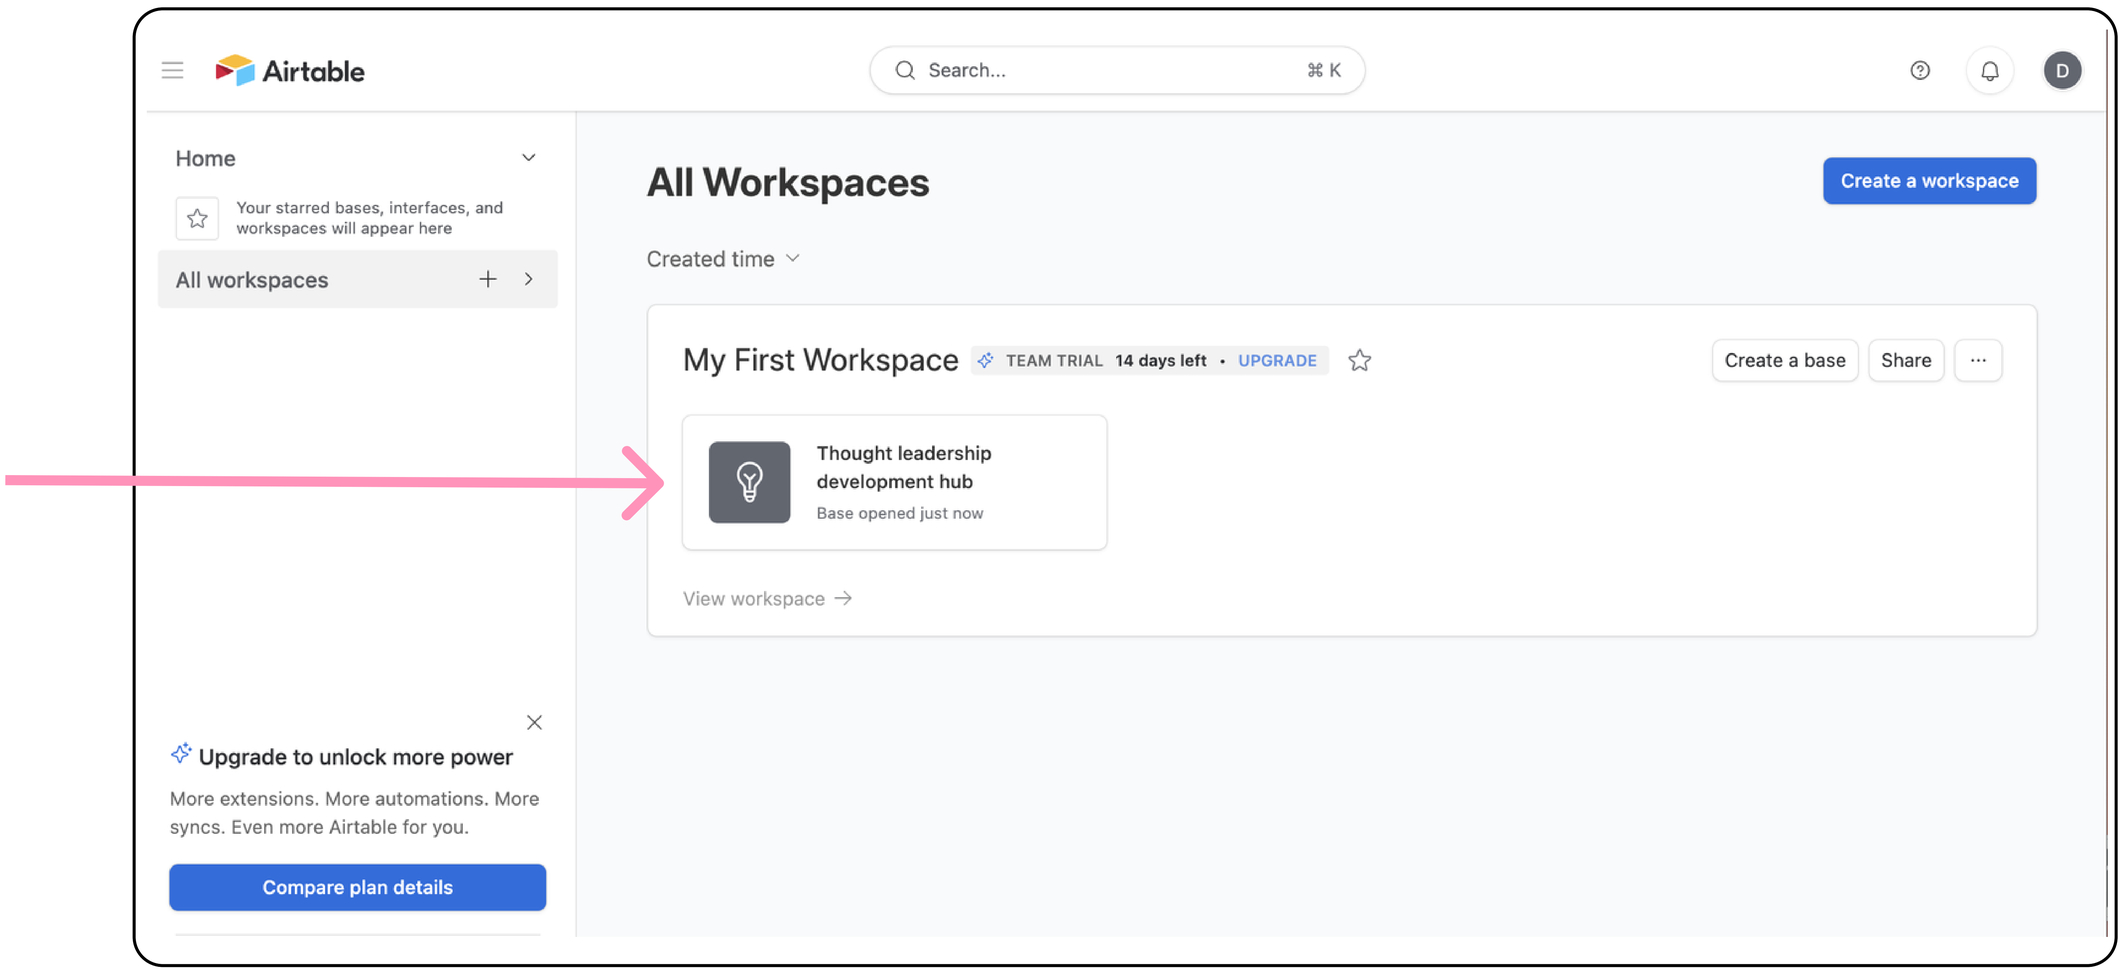

Getting started

If you DON'T have an Airtable account (continued)

3. Once your account is created, you will be dropped into you "Home" view (screenshot below).

- Click on the Thought leadership development hub card, which will be the only base in your workspace (pink arrow below).
- If the Thought leadership development hub doesn't appear, simply click on the template link again: https://airtable.com/appg3FXDFKf8MSwGI/shrbJTE0S0N6YOjWN

4. Now that you have an Airtable account, follow the instructions on page 3 of this welcome packet to update and start using your hub.

Thanks again!
