Thought leader profiler

Your experts have strong opinions and good stories. Most of their bylines sound like the company wrote them.

Builds a Narrative ID for each subject-matter expert (podium, posture and pillars), then pitches topics, drafts bylines in their voice and preps interviews that pull out a story and a strong opinion.

Get started in a few clicks.

Have a Claude account

01 Download the skill and upload the .zip as a custom skill in Claude

02 Paste notes about one expert and ask for a Narrative ID

03 Ask Claude to publish the profiler page for your team

New to Claude

01 Create a free Claude account at claude.ai

02 Check that your plan includes skills and artifacts

03 Add the skill, then start with one expert you know well

GOOD TO KNOW

Pro tip

Ask each expert to edit their own podium sentence; the words they change tell you more about their voice than an hour of interview.

Make it yours

Every template is a starting point. Rename sections, cut what you don't need, and add what your team does differently.

WHAT'S INSIDE

01

A Narrative ID for every expert

Podium, posture and pillars, plus audience, signature stories, strong opinions, phrases, off-limits topics and proof. One page per person.

02

Profiles from your notes

Paste interview answers or a transcript. Claude keeps the expert's own wording and marks anything it had to infer.

03

Eight pitches that fit

Each pitch comes with an angle, a hook, a format and the pillar it serves, plus a strongest three and one topic to skip.

04

Bylines in their voice

LinkedIn posts, op-eds and blog posts that follow the expert's posture and phrases, with notes on what they need to check.

05

Interviews that get the good stuff

Twelve questions grouped by podium, posture and pillars, built to pull out one story and one opinion you can publish. Copy or print them.

06

Honest by default

No invented numbers, quotes or credentials. Missing facts become placeholders, and off-limits topics stay off the page.

Build it on your experts.

01 **Try the demo**
Open the profiler, browse the three Fieldbook expert profiles, and build an interview question set or a prompt for any mode.

02 **Add the skill**
Download the free skill and upload the .zip as a custom skill in Claude.

03 **Profile your experts**
Paste interview notes or a transcript, or run the profiling interview. Claude drafts a Narrative ID for each person.

04 **Check it with them**
Send each expert their podium, posture and pillars and ask if it sounds like them. Fold their edits in.

05 **Publish and share**
Ask Claude to publish your profiler page. Your team pitches, drafts and preps interviews from the same profiles.
